Subject: American Energy Corporation's Bennoc Refuse proposed NPDES permit
[bennoc app.pdf](#)

Mike,

Thanks for the time you took this morning to explain to me the review and coverage of a SMCRA permit regarding these ponds.

I am attaching the NPDES permit application, since it contains the lat/longs for the Ponds 001 & 002, proposed to be 023 & 024 respectively.

I am including below my Region 4 colleague's hydro questions re the site, for your feedback :

1. Do you have any information from the water of the US jurisdictional determination about the hydrological location of the pond?
2. Do you have the watershed size for pond 023 and 024? This would be located in the SMCRA application.

In a separate email I will send the analysis AEC submitted that contains the effluent pond chemistry from an existing pond, Pond 013.

Thanks much,

Janet
